Inpatient Healthcare
Project Manager
2009

Charged with the management of the construction of a new patient floor on top of an existing active patient building at New York Presbyterian Hospital, was extremely challenging simply due to its location. Located on the 14th Floor of the Greenberg Pavilion Building (which spans over the FDR Drive), all services had to be extended, including elevators, water tanks, life safety and mechanical services. This 60,000 square foot project, now fully operational includes (48) patient beds, half of which are high end amenity rooms, conference rooms, meeting rooms and lounges.

BIOGRAPHY
After 20 years of working in a traditional architectural capacity for some of the prominent firms in NYC, Maggi Sedlis Goldstein started Sedlis Goldstein Group in September 1995 to provide Project Management and Owner Representative Services.

Working with Owners during all phases of the project, Sedlis Goldstein Group provides Project Leadership to projects of all sizes. Over the last (19) years we have been responsible for over \$600m, developed an expertise in Healthcare Projects and managed and led the successful development of over (80) projects.
